Dear Mr. Garrison

May I trouble you to send me the Ms. "Voices of Childhood." I may have occasion to use it immediately. Please excuse me for troubling you about it. I ought to have known and realized how very much you are occupied, and especially with your present feeble health; but for your kindness accept my sincerest thanks!

I do not know that I shall use the Ms; but I wish it to show a friend as an offset to a very heretical manuscript, the product of my thus ominous sermons, which we have been discussing together.

I hope to publish a small volume of these sermons sometime within the

year.

Give my best regards to your family. I hope I may meet you at the May Anniversaries.

Yours very cordially.

Send the Manuscript either to the Anti Slavery office, or to 73 South st. New York.
